

Appl. No. 09/314,615
Reply to Final Office Action of March 7, 2005

Amendments to the Specification:

Please replace the paragraph beginning at page 22, line 2, (*i.e.*, the Abstract of the Disclosure) with the following amended paragraph:

Techniques for dynamically loading protocol stacks under signaling control (e.g., a message) are provided. A method of dynamically loading protocol stacks includes the sending of a message [[can be sent]] to load a protocol stack. If the protocol stack cannot be loaded, the method includes unloading a different protocol stack (such as an unused protocol stack) [[is unloaded]] so that [[that]] the desired protocol stack can be loaded. ~~Memory can be more efficiently utilized and non-sharable protocol stacks can be easily shared.~~
